## DISTRIBUTION OF PAPERS

presented at the 70th Annual Meeting of
the American Society for Engineering Education
held at the
Air Force Academy, Colorado

Abstracts of papers presented at the Annual Meeting of ASEE will be available for free distribution in room 4D12, Fairchild Hall. Copies of the complete paper may be ordered for 25 cents each. Papers will be reproduced and mailed to those requesting them following the Annual Meeting. The cost of 25 cents each is to cover the cost of reproduction, handling, and mailing. Copies of the complete papers will be on file in room 4D12, Fairchild Hall, and available for those who wish to read them.

ASEE publications are also available in room 4D12 Fairchild Hall.

## SEVENTH MEETING OF UPADI

UPADI, the Pan-American Association of Engineers, will hold its seventh biennial meeting at San Juan, Puerto Rico, during the week of August 26-September 1, 1962. The program will consist of meetings of various technical commissions and round table discussions. The themes for the round table discussions are:

1. The place of the engineer in the planning of projects financed by international institutions of credit.
2. Standards.
3. Engineering education.

The discussion on engineering education will be a comparative study of the educational system in each country, with emphasis on secondary school preparation, selection of engineering students, curricula, degrees, non-technical subjects, and examinations.

A one-day visit to the radar station in Arecibo, the nuclear power plant in Rincon, and the School of Agriculture and Mechanical Arts at Mayaguez is planned. There also will be a special program for the ladies. The concluding event will be a reception and ball.

No information regarding headquarters, housing, reservations, etc. is yet available. EJC represents the U.S. on UPADI, and Dr. R. A. Morgen is responsible for the planning of the round table discussion of engineering education.
